KTM Rush Pvt.Ltd.

4 years 4 months

Senior Web Developer

December 2018 - March 2022 (3 years 4 months)

Kathmandu, Bāgmatī, Nepal

Lead the development and execution of web-based projects, focusing on high-
quality, scalable solutions.

Facilitate seamless integration of Electronic Payment Gateways using RESTful API endpoints, ensuring robust data exchange and transactional integrity.

Proficiently use PHP, Laravel's Eloquent ORM, and MVC patterns to build efficient, maintainable backend systems.

Recruit, train, mentor, and supervise a dynamic team of web developers, ensuring they are aligned with the company's objectives and culture.

Provide regular feedback and coaching to team members, helping them grow professionally.

Collaborate closely with senior management to define project scopes, set timelines, and allocate resources.

Web Developer

December 2017 - November 2018 (1 year)

Kathmandu, Nepal

Created dynamic and interactive websites ensuring optimal user experience.

Implement interactive UI components and features using JavaScript, AJAX, and leveraging libraries such as jQuery

Develop and maintain server-side logic using PHP, ensuring efficient, scalable, and reliable application functionality.

Utilize MVC frameworks like Laravel or Symfony, emphasizing modular, reusable code.

Implement RESTful APIs to facilitate smooth frontend-backend data interchange.

Manage and optimize relational databases like MySQL or PostgreSQL, handling CRUD operations, data integrity, and schema migrations.

Collaborated closely with the design team and project managers.
